Highlight keywords

☐ Highlight your matching keyword in dashboard

Your personal profile page allows you to perform two actions around keywords:

1. Adding a list of keywords of interest
  1. Keywords defined in this text area are being used to search for matches in the following fields
    1. Event name/company name
    2. Sector
    3. Country
  2. Selecting an option to highlight keywords in the dashboard table

Matched events in the dashboard will be marked with the following icon:   
You will also be able to filter for all keyword hits in the table.

### Email Alerts

**This is a feature for "Professional" subscriptions only.**

The keywords that you are defining in your profile settings will also be used to send you email alerts if a keyword hits on a new event. To enable this feature simply select the option "Keyword alert" and save the changes.

Email alerts

☐ Real-time alerts (raw, up to 4 times per hour)

☐ Daily summary (enriched)

☐ Monthly summary (enriched, 1st of each month)

☒ Keyword alert (enriched, hourly)

The keyword alerts per email are executed once every hour.
