

Browser Extension

Installation of the eCrime.ch browser extension

eCrime.ch Lookup Plugin

Extension

Tools

To install and enable the extension, please go to the extension page on the Google Chrome Webstore:

<https://chromewebstore.google.com/u/1/detail/ecrimech-lookup-plugin/iiglhgknkglaneblknhhhbeedakfkfcp?hl=en>

- 1. Click the "Add to Chrome" button on the page.
- 2. Once the extension is installed and enabled, make sure to pin the extension by:

1. Click the general extension icon in Chrome.

2. Next to the eCrime.ch extension click the pin icon.

3. The eCrime.ch icon is now displayed all the time.

3. Click the eCrime.ch extension icon and select "Back to API Keys".

1.

eCrime.ch - Result

Domain	Organisation	First Seen	Actor	Details
No Events Found				

Back to [API Keys](#)

- 4. On the settings page, enter your personalized API Key. You can find the API Key on your [profile page](#).

1.

Browser Extension

eCrime.ch - API Key Setup

Enter your API key*:

Save

Fetch archive

* You can find your personal API key in your [eCrime.ch profile](#).

Back to [results](#)

5. Once you have entered the key and clicked save, a notification displays that the domain list was fetched and the extension is ready.
6. Now, whenever you browse a URL, the extension checks if eCrime.ch has any details on a cyber security incident.

1.

The screenshot shows a web browser with the address bar displaying 'shell.com'. A popup titled 'eCrime.ch - Result' is overlaid on the page. The popup contains a table with the following data:

Domain	Organisation	First Seen	Actor	Details
shell.com	Shell	2021-03-29	CL0P	View
shell.com	Shell International B.V.	2023-06-14	CL0P	View

At the bottom of the popup, there is a link: 'Back to [API Keys](#)'.
